G430 DRIVER, FW #1 ON TOUR

PGA Tour players are gaming G430 drivers and fairway woods in big numbers, and victories are following.

G430 LST was the #1 driver model at the World Wide Technology Championship, where 26 were played, nearly 20% of all drivers.

As it has been for 15 of the past 16 tour events, G430 MAX was the #1 fairway

wood model with 42 in bags; the next closest model numbered 18.

Their popularity on global tours is being rewarded. G430 driver wins are fast approaching 60, and among those posting victories with G430 MAX fairways have been Corey Conners and Sahith Theegala.

TSUKADA WINS IN JAPAN

Yoshinobu Tsukada earned his second win of the season on the PGA Senior Tour in Japan at the Cosmo Health Cup. Among his PING technology were a G430 LST driver, Blueprint S and Blueprint T irons, and a PLD Custom Prime Tyne C putter.
